

Lanesborough Public Library Mask Policy

It is important that the library is a safe space for everyone. Young children and their families are daily visitors at our library. Because most children are not yet eligible to be vaccinated, we require that ALL patrons (children under 2 are exempt) and staff continue to wear masks when inside the library regardless of vaccination status.

Anyone who is unable or unwilling to follow this policy can borrow library materials through our Curb-Side Service and be helped with reference questions via phone or email but may not enter the library.

This policy is made in accordance with current public health information, CDC guidelines, and the Massachusetts updated face covering advisory for K-12 schools and Child Care facilities effective 5/29/2021.

Updated-5/18/2021
